CANAL BOAT HOLIDAYS AND TRAINING

Skippered Cruises & Training Cruises

With a choice of destinations, our Skippered/Training Cruises are ideal for people who have little or no experience of boating but wish to enjoy all that the canals have to offer. Chose between taking part in an RYA Inland Waterways Helmsman Training Course or just relax knowing you have an experienced Skipper on board.

Your fully qualified Skipper is on hand at all times while cruising and at the end of each day your Skipper will safely moor the boat and leave you to either enjoy a meal on board or visit your choice of local restaurants.

The Skippered Cruises take place on either of our truly luxurious 57' Narrowboats, mollyMOO & jessicaBOO. The boats can sleep up to four people in comfort and have comprehensive cooking facilities and entertainment systems on board.

City Break Cruises depart from our base in Apperley Bridge Marina on the Friday afternoon and include an overnight stop near to the Railway Pub in Rodley. Saturday involves a cruise into Leeds arriving in the afternoon with plenty of time to enjoy an early tour of the city or prepare for a night out on the town. The return cruise on Sunday will arrive back at Apperley Bridge late afternoon or early evening.

World Heritage Cruises are a little more sedate and include an overnight stop at the secluded Field Locks before travelling on to Saltaire Village.

In Saltaire Village you can explore the delights of the model village created by Sir Titus Salt for his workforce but now a tourist destination. Highlights include the famous Salts Mill home of the Hockney Gallery, local shops, bakeries and delicatessens as well as lovely bars and restaurants.

We have limited availability for Skippered/Training Cruises and interested parties should call on 07969 901383 or email admin@bearboating.co.uk for further information and prices.
